SUMMARY

Self-taught Web Developer

On Way to be Software Developer

I have completed my bachelor's in civil engineering in 2018. A year of working on civil companies I found civil technicalities wasn't my cup of tea. I was using the tools of Civil like AUTOCAD, sap, ETABS but I was more fascinated by the tech that was used to create those softwares. I needed to know how they were built. Then I knew about Python then I started learning it. After learning Python, I was completely carried away by it and then I knew the framework called Django. I was excited about building my own website. After than I started learning the basics of website building like HTML5, CSS and Bootstrap. Then I learned JavaScript and jQuery. After learning the Frontend Stuff, I started to learn the Backend of website with Django as my major framework. Now I am partially ready for creating a website. And to escape from Tutorial Hell I started doing my own Projects. I completely left my Civil Engineering career for the sake of my passion and here I am now learning different Things about Programming Every Day. I am committed to lifelong learning as I am extremely motivated and now I like what I am doing.

MAJOR SKILLS

Programming Languages

Python

Framework

Django

Front end Skills

HTML5, CSS, JavaScript, Bootstrap, jQuery

Other Skills

Excel, PowerPoint, Word, Git, Github

EXPERIENCE

July - Aug 2020 | Blog Web App

Used Skills: Django, Html, CSS, Python, Bootstrap and JS

- Developed for the personal use, contains Blogs.
- Front end interface built with Html, CSS, JavaScript, jQuery and Bootstrap.
- Reference: HTML5, Bootstrap, Django Documentation, Google, etc.
- Backend interface built with Python and Django.
- This is single user website and users visiting my website can contact me and add comments to the posts.
- Bug fixing and Performance enhancement of websites

STRENGTHS

- Building with Team
- Committed to Lifelong Learning
- Oral and Written Communications
- Reliable and Consistent

EDUCATION

2014 – 2018 | Paschimanchal Campus, Tribhuvan University Pokhara Nepal

Civil Engineering, 2.8 GPA

2012 – 2014 | Sagarmatha Higher Secondary School Pokhara, Nepal

+2 Science, 3.7 GPA

2018- 2019 | Udemy

Python Programming Language

Django

LANGUAGES

English, Nepali & Hindi
